

Understanding Addiction

Methamphetamine & Co-Occurring Disorders Workshop

Tuesday, September 18, 2007 • 8:30am ~ 4:00pm

Who should attend: Health, social service and human resource professionals, public officials, educators, community leaders, criminal justice professionals and anyone who has an interest in how methamphetamine impacts individuals, children, families, schools, hospitals, the workplace and our community

What you will learn:

- The geographic spread of methamphetamine and trends in methamphetamine use, describing the problem locally, regionally and nationally.
- The impact of methamphetamine on the brain and the associated emotional and cognitive impact.
- Special assessment and treatment considerations when working with methamphetamine using clients with mental health symptoms.
- Specific intervention strategies when working with clients with mental health and methamphetamine co-occurring disorders.
- Sonoma County's community response to the methamphetamine problem including referral resources.

Speaker: Thomas Freese, Ph.D., Director of Training, UCLA Integrated Substance Abuse Programs. Dr. Freese has worked in the substance abuse field since 1983. He has planned and implemented major conferences and developed the materials that are being used nationally for training on Good Research Practices.
